

High Consequence Infectious Disease PPE Workshop

ACIPC International
Conference

A collaboration between
NSW Biocontainment Centre and
NSW Clinical Excellence Commission

20 November 2024

Conflicts and Acknowledgements

No conflicts to declare

The faculty wishes to acknowledge the Wurundjeri Woi Wurrung people of the Kulin Nation as the traditional custodians of the land on where we meet today and pay our respects to Elders past, present and emerging.

HCID PPE in New South Wales

Statewide Resilience

- Statewide rollout of “Level 2” PPE to every LHD in NSW
- Train the Trainer model
- Facilitated by NSW Clinical Excellence Commission
- Single ensemble for all threats – N95 based

Specialist practitioners

- “Level 3 PPE” used in the NSW Biocontainment Centre at Westmead
- Multiple ensembles adjusted based on disease thread
- PAPR or N95 based

We will train this ensemble today

Today's workshop

- Groups of 4 (check your HCID label)
- We will call out your groups in turn
- Proceed through a guided donning process
- Perform some tasks in the “hot zone” to understand communication and dexterity
- Group doffing guided by faculty

- Resource table to find out more whilst waiting (and ask us your questions!)
